

SpaCoverLabs

Radius Measuring Template

How to measure the corner radius?

1. Print the template
2. Place it on the corner of your spa cover
3. Slide it until one arc fits the curve exactly
4. Check which radius matches best
5. If between two sizes → choose the smaller only
6. If under 5 cm → select Shape 1 (right angle)

Please ensure all measurements are taken carefully, as these templates are provided for reference only.
